

**In late autumn, the Populus euphratica trees don their "golden armor", heralding a future of enhanced energy storage**  
**Jinta City Gravity Energy Storage and Supporting Industries of China Tianying Inc. Phase I Project Officially Commences**

The golden hue of the Populus euphratica trees in autumn sets the scene for a new chapter in the energy industry. On October 8th, Shengjun Yan, Chairman of China Tianying Inc.(CNTY), and his delegation visited Peihong Tang, the Deputy Secretary of the Jiuquan City Committee and Mayor, and Haiming Wang, the Chairman of Jiuquan Municipal Chinese People's Political Consultative Conference (CPPCC). The parties conducted in-depth discussions about maximizing the use of local wind and solar resources in Jiuquan and Jinta regions to develop the gravity energy storage industry.

Mayor Peihong Tang warmly welcomed Chairman Shengjun Yan and his delegation on behalf of Jiuquan City Committee and the City Government. While introducing the economic and social development of Jiuquan City, he emphasized that Jiuquan boasts an excellent political environment, solid industrial foundation, and first-class business atmosphere. He expressed hopes that CNTY would boldly forge new paths and speed up their project progress, engage in deep cooperation with Jiuquan City in the field of new energy, and achieve mutually beneficial outcomes. He also urged local authorities to proactively serve enterprises and developments, setting up specialized teams to assist in the early completion of the project.

Chairman Haiming Wang expressed his gratitude to CNTY for supporting the economic and social development of Jiuquan and hoped that through the joint efforts of both parties, the project would become a benchmark and demonstration project in the field of new energy.

Chairman Shengjun Yan thanked Jiuquan City Committee and City Government for their strong support of CNTY and proposed that the company would actively integrate into the construction of Jiuquan's new energy mega base, fully leverage its technological and talent advantages, attract more quality resources to Jiuquan, and contribute to the local social-economic development.

On October 9th, the foundation ceremony for Phase I 50MW/200MWh Gravity Energy Storage Project and supporting industry at CNTY's Jinta site, along with a mobilization meeting for the commencement of work, were grandly held in Jinta County, Jiuquan City.

Government leaders from Jiuquan, including Haiming Wang, Chairman of Jiuquan CPPCC; Vice-Chairman Jinrong Zhang, Secretary-General Cheng Song; Jiongfang Li, Secretary of Jinta County Committee; Chairman of the Standing Committee of the County People's Congress Yanjun Cao; CPPCC Chairman Jun wang, and heads of relevant municipal departments, as well as company leaders from CNTY like Chairman Shengjun Yan, Vice President Ping Lu, Vice President Zhu Che, and Assistant to the Chairman Xuebing Xiao, all attended the ground-breaking and

commencement mobilization meeting.

During his opening speech, Secretary Jiongfang Li of Jinta County pointed out that the landing and construction of the CNTY Gravity Energy Storage and Supporting Industries Project is another fruitful outcome of the local new energy industry and will inject a strong driving force into the county's ambition to create a tens-of-millions-of-kilowatts-level new energy industrial base, promoting leaps and bounds in economic development at the county level. The various departments at all levels within the county must regard the CNTY Gravity Energy Storage and supporting industries as a key project construction "leader," strengthening coordination and cooperation, actively following up with service solutions to ensure the smooth implementation and rapid advancement of the project.

Chairman Shengjun Yan thanked Jiuquan City and Jinta County for their trust and support of CNTY. He said that Jinta County, with its rich cultural heritage, unique resource abundance, and superior business environment, is a fertile land for investment and industry. Jinta project of CNTY is a significant strategic deployment in the northwest region and an important node in the company's new energy industry development. CNTY will always adhere to the value of "winning together is the real victory" and utilize advanced technology and strong industrial capability. Rooting in Jinta county, cultivating its resources, and elevating its status, CNTY aims to help Jinta become a significant national new energy industrial base and contribute CNTY's green strength to the high-quality development of the golden Jinta.
